Gail Thackray

Psychic to the stars- and their pets!

Gail is a British born internationally acclaimed psychic. She started doing "pretend" readings with Tarot cards, when she was a young girl. These readings proved to be incredibly accurate and led her to become one of England's most renowned psychics.

It wasn't until Gail took up the art of Reiki energy healing, that she realized she is a gifted Psychic Medium, able to communicate with people who have passed over.

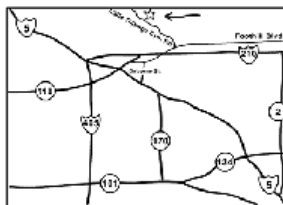

Later She discovered that she can also communicate psychically with animals and can pass on messages from animals both in spirit and alive. She is now one of the leading pet psychics.

Gail lives in California and travels doing readings and lectures on spirit connection, animal communication and psychic phenomenon. She is incredibly accurate and people are often "blown-away" by things that come up.

Gail is Available year round for private readings
Mon- Fri 11 am -4pm
However she will accommodate evenings and weekends by special request.
She limits the amount of readings per day and does readings at the ranch or over the phone
